I used to walk around with my head down
With no way to be who I knew I could be
I wanted to make you smile
Make you proud of me
I used to think a home was a lost dream
Some kind of goal I could never achieve
And then it came to me
The touch of humanity

This house was built out of love
So many hearts inside these walls
Reminding us the best in one another
Finds its way when we care for each other
We don't need a hand out
We just need a hand up to stand up tall

It's more than just a home -- it's a family
Nail by nail and piece by piece
Together we're standing strong
Together we all belong

This house was built out of love
So many hearts inside these walls
Reminding us the best in one another
Finds its way when we care for each other
We don't need a hand out
We just need a hand up to stand up tall
To stand up tall

What began as a hole in the ground
Grew into hope for my soul
I'm not alone
I'm not alone anymore

This house was built out of love
So many hearts inside these walls
Reminding us the best in one another
Finds its way when we care for each other
We don't need a hand out
We just need a hand up to stand up tall
We don't need a hand out
We just need a hand up to stand up tall
To stand up tall
